

FUTURE ATTITUDE OF CHURCH

May Hinge on Decision Regarding the Astor Marriage

STRIKING UTTERANCES

Of Dr. Richmond, Pastor of Philadelphia Church Leading Agitation Against Wedding.

STRIKING UTTERANCES BY REV. DR. GEO. CHAMBERS RICHMOND, OF PHILADELPHIA, PASTOR OF ST. JOHN EPISCOPAL CHURCH, LEADING AGITATION TO PREVENT COL JOHN JACOB ASTOR BEING REMARRIED BY AN ORDAINED MINISTER.
John Jacob Astor is a communicant in our church and his remarriage affects the integrity and vitality of Episcopalianism. The Force family appear to be simply climbers dazzled by the Astor millions.
Our women are responsible for the divorces, scandals and demoralization of American society. American women are money-mad.
American women hunger and thirst for the limelight even if through a scandal. They have the home only to sleep in.
American women dress with such immodesty that their limbs and bodies are exposed to the gaze of all who wish to look.
J. P. Morgan cannot help his friend, J. A. Astor, because Morgan is on record as opposed to divorce. Those who inherit their wealth are the worst.
The Goulds, the Astors, the Drexels—they furnish grist for the divorce mills, materials for the scandal factories.
Only in America can women be found who sell themselves and their children to the highest bidder.

New York City, Aug. 8.—Whether the great wealth and social position of Col. John Jacob Astor will be a sufficient for him to secure permission of the council of Bishops of the Episcopal church for his remarriage has agitated social circles here today as never before.
On the decision may hinge the future attitude of the Episcopal church as the element opposing the marriage headed by the Rev. Dr. George Chambers Richmond, pastor of St. John Episcopal church in Philadelphia, today insisted that he will place every church dignitary who sanctions the wedding on public record.
Bishop Suffrage Charles S. Burch of the Episcopal diocese of New York, who is a conservative in all things, admitted today that the question of sanctioning Col. Astor's wedding was most momentous. He also threw some light on the church regulations insisting that unless the council can convince the church that he was the innocent party to the divorce action his marriage can hardly be sanctioned. The divorce action was prosecuted by Mrs. Astor; was not opposed by Astor and the decree forbids Astor to remarry in this state, while granting that right to Mrs. Astor. Infidelity is the only ground for divorce in New York.
"The majority of the bishops and ministers of the Episcopal church are unalterably opposed to divorced persons remarrying at all, although the laws of the church does not prohibit absolutely such marriages," explained Bishop Burch. "But the church laws are most strict in saying what marriages shall be sanctioned. The divorced person must appear before a Bishop of his diocese or a council of Bishops—which will probably be the rule in the Astor-Force case—and demonstrate that not only is the decree final, but that he or she was the innocent party. Until this is done no Episcopal minister can perform the ceremony."
"I think that Dr. Richmond's strictures are most intemperate but all in all he voices to a great extent the feeling toward Col. Astor's remarriage held by the majority of the Episcopal church. Rev. Father Evers, pastor of St. Andrews' Roman Catholic church said:
"Such a marriage as that of Col. Astor is a legalized free love. Speaking as a man as well as a priest, I think this elder bride groom should be strung up. The present case is particularly flagrant in its disregard of social, and even human decency. A man of 47, divorced scarcely more

SIGNING OF THE PEACE TREATY BETWEEN GREAT BRITAIN AND THE UNITED STATES

GENERAL PROVISIONS OF THE TWO ARBITRATION TREATIES BETWEEN THE UNITED STATES, GREAT BRITAIN AND FRANCE.

All differences internationally justiciable shall be submitted to The Hague unless by special arrangement some other tribunal is created or selected.

Differences that either country thinks are not justiciable shall be referred to a commission of inquiry, composed of representatives of the two governments, empowered to make recommendations for a settlement. Should the commission decide that the dispute should be arbitrated such decision will be binding.

Before the arbitration is resorted to, even in cases where both countries agree that the difference is susceptible of arbitration, the commission of inquiry shall investigate the dispute with a view of recommending a settlement without arbitration.

The commission at request of either government, will delay its findings one year to give an opportunity for diplomatic settlement.

The senate will ratify the terms of submission of each dispute to arbitration.

Washington, August 8.—The signing of the peace treaty here between the United States and Great Britain almost simultaneously with the signing in Paris of the peace treaty between the United States and France, where Secretary Nagel, Secretary Wilson, Chandler Anderson, counsel of the state department, and Sydney Y. Smith, chief of the diplomatic bureau of the state department, were awaiting them. Ambassador Bryce, lean arbitration treaty was signed at the ministry of foreign affairs. The treaty was signed for France by Jean Jules Jusserand, French ambassador to the United States, and in the presence of Robert Bacon, American am-

will, it is stated by statesmen, mark the opening of a new era in international politics. Secretary of State Knox, British Ambassador Bryce and Viscount St. Paul, the vice consul of France at New York, met President Taft in the White house. After an exchange of courtesies they proceeded to the president's study, sitting on one side of the president's table, and Secretary Knox, facing him, affixed their signatures. President Taft stood over them, America's witness. Esmond Ovey, secretary of the British embassy, acted as Great Britain's witness.

Paris, Aug. 5.—The Franco-American arbitration treaty was signed at the ministry of foreign affairs. The treaty was signed for France by Jean Jules Jusserand, French ambassador to the United States, and in the presence of Robert Bacon, American am-

than 12 months for unfairness to his wife of 20 years, marries a child, a girl younger than his own son—who is reported to be courting the sister of his "new mother." It is a crime against nature, as well as against society.

Rev. John S. Allen, pastor of the Marble Collegiate Church, on Fifth avenue, said:

"No self-respecting minister of any denomination can afford to marry this man. He has sinned against the state, for he has deliberately broken up a home and family, the very nucleus of the state."

Rev. C. O. Bernstein, pastor of the first Adventist church said:

"Crime and disgrace are the proper words to use in describing such a mock marriage. The man is simply after a young and tender victim. The girl wants money and place and luxury. The marriage is an abomination and should not be tolerated."

"Criticism of Col. Astor's coming marriage comes only from that class of persons who hate men of wealth and can see no good in anything they do," said Mrs. Sylvia Astor Wilkes, daughter of Betty Green, and a relative by marriage of Col. Astor today.

"Mr. Astor does not care for the opinion of the public. Yet his is the same kind of a love match as mine was. People criticized me for marrying a man whose age was pointed at 65, but I loved him and married. The possession of wealth however, subjects people to unjust criticism and in this country people of wealth have no protection from slander."

Newport, R. I., Aug. 8.—While ministers and club women are denouncing them for their coming wedding, Col. John Jacob Astor and Miss Force answered with positive but informal announcements to their friends today that the wedding ceremony would be held in Newport about the 15th of October.

BIG WAGE DEMAND MAY CAUSE STRIKE

Chicago, Aug. 8.—Demands for an increase in wages aggregating \$50,000,000 may cause a general strike on the railroads west of Chicago, according to statements made today by Julius Kruttschnitt, vice president of the Union Pacific and Southern Pacific railroads. The demands, it is said, have been presented by shopmen, including machinists, car repairers, blacksmiths, and pattern makers.

Orange glass flowers, plants, but huts the fruit. Violet glass increases the quantity of fruit, but lowers the quality, red, blue and green glass is formally injurious.

One of the best meetings ever held by the South Side Citizens' Association was the open air meeting held on the lawn of the chapel in the South Side last night.

There were present not only a majority of the members of the progressive association, but many persons from all parts of the city were present, for they felt that what interested the South Side represented, to a great extent, the entire city.

The meeting was presided over by Senator William E. Miller with his usual grace and ability, and the utmost enthusiasm prevailed throughout.

One of the principal things in connection with the meeting was the report of the committee on subway, which showed that the preliminary work of this great improvement, which is bound to benefit the entire city, was progressing nicely, to the entire satisfaction of all concerned.

During the meeting a number of short talks were made by prominent citizens, among them being Emmett Baughner, William J. Fitzgibbon, Rev. Father B. M. O'Boyle, O. C. Jones, Hon. William E. Miller, Charles Stassel, Frank Keenan, Cliff Broadbent, W. A. Veach and others.

By a unanimous vote of those in attendance at the meeting, a vote of thanks was extended the members of the city council for their prompt action in passing the ordinance declaring it necessary to eliminate the grade crossings and also to City Engineer Frank Bolton and City Solicitor Wells for their assistance in their respective positions.

The illness of Mr. Fred Mohlenpach was noted and a resolution of sympathy for him was passed, which bore with it the hope that he might soon be restored to health.

A committee was appointed to wait on the county commissioners and ask them to grant the prayer of the South Side residents of the city

ATTEMPTED TO DESTROY THE BOOKS

For Purpose of Concealing the Shortage in Cashier's Account

BURGLAR DIES OF BURNS

Had Been Hired to Set Building Afire—Cashier and Pal Arrested.

New York, August 8.—As a result of the alleged attempt to destroy the records of the Longacre Mills and Elevator Company, in Jersey City, for the purpose of concealing a shortage of \$2,500 in the accounts of Samuel Brown, the cashier, Brown and Patrick J. Timmons, an expert accountant, are in jail there today under the charge of arson, conspiracy and manslaughter.

The police hold a confession bearing Brown's signature, telling of his plans for the crime and naming Timmons, his good friend, as an accomplice.

Frank Walsh, known as "Lightning," the burglar who was hired to do the job, died yesterday of burns in trying to carry out the scheme.

Brown was arrested when he reported for work. His employer told the police that experts had been examining the accounts during the previous week and had set yesterday for examining the books.

Brown, after little resistance to the detectives' questions, told them he had been short since January 1, and that Timmons had worked on the books as a friend for three months trying to cover up his tracks.

Brown's alleged confession says in part:

"About 1:30 Sunday I met Timmons in a saloon in Jersey City. We had been talking about destroying the books for the past two months as I was short in my accounts. Timmons said he could get a man in Newark to do the job, and we took a trolley car to a Newark road house to meet the man."

"Timmons left me there, but returned in half an hour with Walsh. The three of us took an automobile to Jersey City."

"About 9:30 we went to the office of the Long Dock Mills. I opened the door and the three of us went in. I then opened the safe door and took out three check books and the cash book. Walsh held the books over the gas jet and set them on fire."

"I watched them set one book on fire and then I left them there to go back home in New York. I did not know anything about the fire until this morning."

The police did not tell Brown, on arresting him, that Walsh had died in his attempt. Instead, they tried to batter down his defense, and failing, one of them finally said:

"Walsh died at 5 o'clock this morning."

Brown gripped his chair. His breath came hard and his eyes started. "My God," he said. "I can't have a man's death on my soul."

Then he told his story.

Timmons was arrested nearly his home in Newark. Intermittently the detectives have been at him all afternoon and night seeking to elicit a confession, but their efforts so far have been unsuccessful.

The safe was found intact, although at first glance it was thought its doors had been blown from its hinges.

There was no evidence of an explosion, the firemen say, but plenty of evidence to show that gasoline had been used liberally. The books, however, although soaked with the

fluid, were only charred about the edges.

When Walsh was found by firemen with his eyes blown out and his clothing all but burned from his body, he said he had gone into the office, the door being open, to sleep. He was smoking a cigarette, he said; fell asleep, and he supposed the cigarette set the place afire. At the hospital he was told that he would die of his burns.

"Now," queried a detective who was with him, "won't you tell us how it happened?"

Walsh shook his head and straightened out on his cot. It was his last act.

Wearied by the badgering of the detectives, Timmons made a statement last night in which he is said to have admitted meeting Brown going to Newark with him, and later returning with Brown and Walsh to the Long Dock offices. He denied having introduced Walsh to Brown.

DIED PENNILESS AFTER SAVING LIFE OF SAGE

New York, Aug. 8.—Penniless and almost friendless, William R. Laidlaw, who when a small salaried clerk was used as a shield to save the life of Russell Sage, died today. The aged millionaire escaped unhurt when a bomb meant for Sage, which was thrown in 1897, inflicted 180 wounds on Laidlaw and changed him from an invalid athlete to an incurable invalid. The victim was never recompensed by Sage. The millionaire contended that he did not use Laidlaw as a shield and when the case was taken to the courts his lawyers made use of every technicality to escape payment.

EDITORS FAVOR SIGNING OF BILL BY PRESIDENT

Chicago, Aug. 8.—Editors in twelve north central states believe that the wool bill, the farmers' free list bill, and the cotton bill should be signed by President Taft, according to a poll printed today by the Chicago Tribune. The states are Ohio, Indiana, Michigan, Illinois, Wisconsin, Missouri, Iowa, Minnesota, Kansas, Nebraska, North Dakota and South Dakota. Telegrams were sent to 1,105 editors by the Tribune and replies were received from 461. The poll shows a majority in favor of the signing of the bill by the president, but it shows an overwhelming majority of Republicans against the measure. Democratic editors voted solidly along party lines. A summary of the polls shows: Republican veto, 184, sign 101; Democrats, veto 3, sign 107. Independents veto 101, sign 45. Total veto 208, sign 253.

LOOK FOR JONES' CAPTURE SHORTLY

Cincinnati, O., Aug. 8.—With the description of Carlos Jones, the negro who is accused of murdering his white wife, in the hands of every police department within a radius of 300 miles of Cincinnati, the police today believe that Jones will be arrested shortly. It was reported that he was seen Sunday in Lima, O., and detectives have been following up several similar clues for the past three days.

GEN. GORDON SERIOUSLY ILL

Memphis, Tenn., Aug. 8.—General George B. Gordon, commander-in-chief of the United Confederate Veterans, who has been ill at his home here for three weeks, is in a critical condition today. Fear that he cannot survive many hours has been expressed by physicians and members of his family.

The man with a strong character doesn't always have that kind of breath.

FIGHT STILL ON BETWEEN MAYORESS AND THE COUNCIL

Hunnell, Kan., August 8.—A session of the city council created great excitement here last night. Nearly every man and woman in town was out to hear the wordy battle between Mayoress Wilson and the councilmen who began war on her when she was elected last spring, creating a long deadlock.

All the members of the council were present but it was evident that from hints dropped there would be no possible show to transact any business in compliance with the wishes of the mayoress.

Mrs. Wilson offered three appointments for approval. The council steadily refused to confirm her appointments, whereupon Mrs. Wilson refused to sign the bunch of war-

rants that were land on the table, from which it was proposed to liquidate many unpaid obligations the city has contracted in the past six months.

An expression from members of the council at this meeting gave evidence that they were in real earnest, and propose to fight the battle to the finish on the plans which seemed to be outlined, that of stubbornly refusing to acquiesce in any proposition advocated by the mayoress.

Mrs. Wilson said that unless proceedings would probably be begun a few days against the stubborn councilmen. She says that Governor Stubbs has promised her aid if the council refused to allow progress to be made in Hunnell. It is her intention now, she says, to make every councilman lose his job.

HAL LANDON DROPPED TO HIS DEATH

Well Known Columbus Newspaper Man Found Dead in Cellar

FELL INTO OPEN SHAFT

Body Was Discovered by Hotel Attache 48 Hours After Accident.

Columbus, Aug. 8.—Hal D. Landon, aged 45, widely known as a newspaper man, was found dead at the bottom of the elevator shaft in the Metropolitan Hotel, yesterday afternoon by Tom Brown, an elevator boy. Coroner Hanes and police detectives believe death was accidental and caused by Mr. Landon falling into the shaft through an unlocked door Saturday.

Coroner Hanes was informed by a fellow newspaper man that he was with the victim at 10 o'clock Saturday morning and that he then expected to take the 11:30 car for Westerville, where he lived with his mother.

Brown, the elevator boy, said yesterday that while his car was at the second story Saturday afternoon he heard a noise in the shaft as though a body had fallen. He told W. W. Tammage, a clerk in the hotel of the occurrence and they started an investigation. Running the car to within a few feet of the bottom of the shaft, Mr. Tammage lightly matched but did not see a body beneath. A strong bat-lay in the shaft, but as a patron of the hotel had disposed of an old hat during the afternoon, he supposed it had been thrown down the shaft.

The officials are unable to determine whether Mr. Landon fell from the barber shop in the basement or from the lobby of the hotel on the first floor, although they are inclined to think it was from the latter. Traces of face powder, as he had been shaved only a short time before death were found, and this suggests the theory that he fell from the basement. It is a drop of five feet from the basement to the bottom of the shaft.

It is a drop of 15 feet from the floor above. The body was lying face downward with the head toward the south wall away from the entrance to the shaft when found.

If Mr. Landon had fallen from the lobby, the police say, the body could have been in this position. His injuries consisted of a broken neck and cuts on the face. The short fall from the basement could have caused these, says Coroner Hanes. Barbers in the basement do not remember seeing Mr. Landon in the shop, but say that during a rush he could have escaped unnoticed.

Brown, the elevator boy, noticed a strong odor in the shaft yesterday, and about 3:30 started to investigate. At the bottom of the shaft he could see the outlines of a man and called the clerk on duty. Police and Coroner Hanes were on the scene within a few minutes and the body removed. A letter in the pockets of Mr. Landon's clothes, addressed to him at his home was the means of identification.

Mr. Landon, who made his home at Westerville, was in the habit of coming to Columbus upon occasions of stopping for several days at a time at down town hotels. This practice of his accounts for the fact that his absence from home had created no surprise or alarm. He did not register at the Metropolitan Saturday.

Mr. Landon was well and favorably known here served Cincinnati and Cleveland papers in Washington and New York and gave many years of his life to work in Columbus.

He was born in Westerville, where his mother, Mrs. Clara Landon, and a sister, Miss Roseana Landon, still make their home. Miss Landon is one of the instructors at East High school.

Assisted by his brother, Karl, who died 11 years ago, he was an early editor of the Westerville Opinion. (Continued on Page 7, Col. 3.)

BURGLAR HAD SWEET TOOTH

Burglars effected an entrance to the office of Weight & Cramer, bankers, of Hudson street, sometime during Monday night. A window was forced which gave the miscreant entrance to the place. The cash drawer was pried open but aside from a small quantity of change they secured little for their efforts. A check which was left in the drawer was unmoistened. A quantity of gum and candy was taken and the thieves left by the same window they entered. It is believed the burglary occurred between 11 and 12 o'clock Monday night.

What tree? Answer to Monday's puzzle.—Stall.

EVAS ARE HERE FOR THREE GAMES

The Evansville club arrived in the city today and the two teams are engaged in mighty conflict at Wehrle Park this afternoon. Both teams have had a day's rest and many players belonging to these two clubs took in the Columbus-Indianapolis game at Columbus yesterday. Evansville has a postponed game from the last trip to Newark and the management of the two clubs may get together on a double header during this trip to Newark.

SHORT SPORT

They CAN come back.

Joe Tinker, reinstated, got four hits, stole home once, scored three, drove in four other runs, landed nine nobbling chances and took part in two thrilling double plays.

Tinker, he it remembered, is the man Frank Chance suspended for the balance of the season for "indifferent playing."

But they do not ALWAYS come back.

"Peerless" Christy Mathewson is getting used to being licked, almost anybody being able to pull off that stunt this year.

Although Chalmers of the Phillies gave the Pirates only three hits, he donated six bases on balls and lost his game, 2 to 1.

History may repeat itself and it should occasion no very great surprise to see Fred Clarke's men hoist a championship pennant instead of the black flag.

Both Roger Bresnahan and Brad William Pahlen were put on the field for disputing the umpires in the Brooklyn-St. Louis affair.

Before being bounced, Bresnahan had been hit on the foot by a foul tip and later reports indicate that a bone was broken, putting the doughty manager out of the game for the balance of the season.

Two games which were real games were noted in Philadelphia, the White Sox coming out at the bottom end of each. Hard on the White Sox, but pleasing to the Athletics.

Larry McLean isn't catching for the Reds these days. Which inspires the natural question: "Is he out? Bugs Raynhaming?"

It seems the only reason the Yankees keep in the first division is because the White Sox playing more double headers can lose games faster.

"Cobb wins game for Tigers," reads a headline in the morning papers. That is a fact absolutely unworthy of comment; only exceptional events cause discussion and interest.

Ladies, too, must have taken a correspondence school course of instruction in the gentle art of "returning." Just four hits, three of which were two baggers and one a home run were his lot.

TWENTY-ONE INNING GAME IN MICHIGAN

Rossmore, Mich., Aug. 5.—The Ironwood Tigers and the Carey Empire of Hurley are still discussing today the 21-inning game which they played at Ironwood yesterday which ended in favor of the Hurley team, 4 to 3. Pitcher Gustafson, of the losing team struck out thirty men and allowed only ten hits.

SPOTTED FEVER CARRIED BY TICKS

The transmission of Rocky Mountain spotted fever by wood ticks was proven several years ago by Dr. Howard T. Ricketts of Chicago, who later on died from typhus fever in the City of Mexico while investigating that disease. His death put a stop, for the time being, to his investigations, but they have recently been taken up again by Dr. Cooley of the Montana Experiment Station, who reports, in a recent bulletin, that there are probably six varieties of wood ticks capable of carrying the disease from animal to man and that the length of life of the ticks is two years instead of one, as has heretofore been believed. Adult ticks feed chiefly on domestic animals, so that animals must be kept free from ticks for two consecutive years in order to prevent the development of spotted fever. Cooley has endeavored to destroy the ticks on cattle by dipping. As spotted fever is prevalent in Montana, Idaho and large districts in western states, the problem of the destruction of the ticks is a difficult one to solve. The Journal of the American Medical Association, in a recent issue, comments on the situation in the light of Dr. Cooley's experiments.

"SHERIFF BOB" AFTER DIVORCE FROM CAVALIERI

New York, August 8.—The famous "Lina-Bob romance" will probably follow the prosaic way of so many international romances.

It was stated today that "Sheriff Bob" Chanler soon is to bring an action for absolute divorce from Mme. Lina Cavaleri, his beautiful operatic bride. Relatives of Chanler, it is said, have raised a fund to secure evidence upon which Bob can base his action. Lina is said to have been trailed by Chanler agents in Europe from one spa to another. Her way is said to have been so beset that she has forsaken her usual watering places and has taken refuge in various continental centers.

A dispatch from Berlin tells of her short and sensational sojourn in the German capital. According to Berlin gossip she was frequently in the company of Prince Dolgorouki, he whom John Armstrong Chalmers (internationally famous as the author of "Who's Loony Now?") dubbed the "Prize Porker."

BOY CAGED WITH HYENAS

Rapid City, S. D., August 8.—Imprisoned in a cage with a pair of South African hyenas and bitten and scratched until his body was a mass of cuts has been the experience of a five year old boy named Jenree, according to charges of State's Attorney Deinn.

The child's foster parents, Mr. and Mrs. James J. Johnson, have been jailed, at the instigation of his real mother. It is declared that the child was exhibited by a carnival company in Minnesota and Iowa in the cage of "grave robbers."

When the boy was 18 months old his father placed him in an orphanage in Omaha. Later the Johnsons secured possession of him.

The mother of the boy, who is now Mrs. Henry N. Weakley, of Omaha, after three years learned of her child's predicament, and she started proceedings to take him from the Johnsons.

SHAKE UP

Occurred Today in the Diplomatic Service by Number of Shake-Ups.

Washington, Aug. 8.—The long expected shake-up in the diplomatic service took place today in the nomination of three ambassadors and three ministers to fill posts in Europe and the Orient. The nominations made today were as follows: John G. Leishman of Pittsburg, now ambassador at Rome, to go to Berlin; Thomas J. O'Brien of Grand Rapids, Mich., now ambassador at Japan, goes to Italy; Charles Paige Bryan of Chicago, minister to Belgium, is to be ambassador to Japan; Larz Anderson of Ohio, formerly with the American embassy at London, to be minister at Belgium; John R. Carter of Baltimore, now minister to the Balkan states to be minister to the Argentine Republic; J. B. Jackson of Newark, N. J., now minister to Cuba, to go to the Balkan states.

REAPPORTIONMENT SIGNED TODAY BY PRESIDENT TAFT

Washington, Aug. 8.—President Taft today signed the reapportionment bill fixing the membership of the house at 433.

This will give one more congressman to Ohio. Several prominent Republicans have already been mentioned as candidates, among them Ex-Senator Charles Dick.

Hon. W. D. Fulton of Newark, O., chairman of the Federal committee of the last Ohio legislature, is being urged to make the race for the Democratic nomination of congressman-at-large.

UTICA

Misses Clara Adams and Edna Warner returned Friday after attending summer school at Athens.

Mr. Peter Murphy and Miss Alma Davis of Marion, Ind., are guests of the former's parents, Mr. and Mrs. M. Murphy.

Mrs. Frank Andrick spent a few days last week with friends in Mt. Vernon.

Misses Martha Turner and Lillian Adams left Tuesday for a trip to Mackinac and the Soo.

Miss Irene Tulloss of Newark is visiting her grandmother, Mrs. McFadden.

W. D. Chandle returned Sunday from a week's stay at Lake George.

Misses Sarah and Amanda Hervey went to Lake Chautauque last Thursday to spend a few weeks.

Mr. and Mrs. Charles Gay left Thursday evening for a two weeks' trip to Philadelphia, New York and Atlantic City.

Miss Nellie Bricker went to Rye Beach Wednesday to visit with Mrs. Elsie Harris Young.

THE BOOSTERS LOST.

The game last Sunday between the Junior South Side Boosters and what was supposed to be the Franklin Addition boys, was won by a picked nine from all over the city, mostly old time ball players. The next game will be played with the Boosters and Plunkers, Sunday morning on the same grounds.

They attended the picture show at the Colonial and then went to her home where the remainder of the evening was spent in games and music. Delicious refreshments were served by the hostess.—Cambridge Jeffersonian.

The Rev. Walter Ward and children of Newark were guests Sunday at the home of Mr. and Mrs. Wade S. Rhinehart. The party made the trip in their touring car and will leave Monday afternoon for Tuscarawas where they will visit relatives.—Coshocton Daily Times.

Heart and Home Talks

by Barbara Boyd

Discusses Some Daughters As Other People See Them.

IF I were the mother of some daughters," said the Candid Girl, "seems to me I would talk to them in plain black and white. I wouldn't throw in any softening tints. They should have it without relief of any kind."

"Mothers usually do give it to their daughters that way," said Pert Sixteen.

"If they get it, I guess they need it," replied the Candid Girl. "But the trouble usually is that mothers of such daughters are either martyrs, or resigned, or they nag, none of which does much good. They want to hand out good strong talk."

"I suppose you mean me," said Pert Sixteen.

"I wasn't personal," replied the Candid Girl, sweetly. "I never am. But some daughters are utterly selfish. They think their mothers were made to wait on them. They lie in bed in the morning, and let their mother bring up their breakfast. They invite a lot of company, but let their mother sweep and dust and cook and bake and do all the work that goes with entertaining them. The mothers of such daughters ought to tell them in plain language that this program was going to be reversed, and that if anybody was to be waited on, it was mother's turn."

"Then the mothers of some daughters ought to let their daughters know that they are interested in what their daughters are doing. Some girls seem to have an idea that their mothers don't care to know about their affairs and they come and go and spend their mornings here, and their afternoons there, without ever saying a word as to where they have been or what they have been doing. And all the time the mother is really hungry to enter into her daughter's life, but is too sensitive to ask questions or to seem to push in. Girls forget that mothers were young once, and enjoyed beaux and parties and all the little affairs that make life so full of zest. And some daughters shut their mothers out from all this, and seem to think they care only for humdrum things."

"Then, there's the girl who knows it all. Her mother can never tell her anything because she is so much wiser. She considers herself a far better judge of human nature than her mother, and so disregards her mother's advice about her associates. She knows so much more about fabrics than her mother, that she never would think of taking her mother's advice about what to buy. In fact, there isn't a thing in life upon which she couldn't give her mother points."

Pert Sixteen had been gazing reflectively at the Candid Girl. "I was wrong," she said, "about that pale lavender lawn. Mother said it would fade, and I said it wouldn't."

"And I don't believe," said the Candid Girl, smiling at her a bit, "that the lavender lawn is your sole crime in that direction."

Pert Sixteen shook her head. "Maybe, but there will be less in the future."

"And I don't believe I'll let my mother bring up my breakfast any more," said the Lazy One, "though she says she likes to do it."

"Yes," said the Candid Girl, softly, "mothers do like to do it. But they'd like it a heap sight more, if you'd wait on them a bit."

THE LITTLE TAFFETA FROCKS ARE SIMPLICITY ITSELF.

There is a smartness about the perfectly plain frock which no amount of trimming can rival. Exaggerated simplicity is now the fad in tailored street frocks of thin wool or silk, and sometimes these frocks are made of self-striped mohair fabrics. The costume pictured is of black taffeta silk with stitched bands of the silk and very wide black braid. The Corday collar gives the one strong color note, being of cyclamen pink satin. The helmet hat has a crown of this same pink color.

SWEETHEARTS IN YOUTH WED AT 81

Cleveland, Aug. 8.—A romance, interrupted 60 years ago by a lovers' quarrel, had a happy culmination at Mt. Gilead, when Mortimer Baldwin and Mrs. Hanna Wells, both 81, were married at the parsonage in Marengo by Rev. F. G. Boroff.

It was 60 years ago that Baldwin first courted Hannah Wilson in South Woodbury village. One evening Baldwin called on Flora Aldrich, village gossip told, his sweetheart. They quarreled, in 1854 Hannah Wilson married Ruben Gardner. The next year Baldwin wedded Flora Aldrich. The two couples lived as neighbors, and Hannah Gardner and Baldwin forgot their quarrel.

In 1850 Gardner died and in 1885 the widow married Captain Milton Wells. Mrs. Baldwin died in 1891 and with the death of Captain Wells last February, the former sweethearts were free to marry.

Attack Like Tigers.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Baldwin of Tracy, Calif. "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c. at F. D. Hall's.

WOMEN "TOUCHED" HIM FOR ROLL

Louisville, Ky., Aug. 8.—C. R. Brock, a resident of Leitchfield, Ky., was hugged by two negro women here. In the course of the embrace he lost cash in the sum of \$82.

Anna Green, a negress, residing at 708 Grayson street, was arrested charged with the robbery. Arresting officers recovered Brock's money at her house.

Judge Boldrick in the City court held the Green woman to answer, fixing her bond at \$300.

HEALTH HINT FOR TODAY.

Simple Diet and Longevity.
An English resident of Manila
for many years, admitting that
the natives live to be very old,
was asked his opinion of the
cause of the great longevity of
many of them. "The simplicity
of their diet," he said, "is the
only reason I can assign. They
live on rice, bananas and a lit-
tle fish." Yet they readily take
to eating meat and the complex
diet of Europeans in general, a
tendency which is no doubt un-
iversal. Simplicity of diet is in-
variably associated with longev-
ity.

SENATE'S POWER TO DELAY BUSINESS

The United States Senate sat in ex-
traordinary session more than three
months without transacting a solitary
piece of business of wide importance
except the passage of the joint resolu-
tion for direct election of senators—
with an amendment that required fur-
ther consideration of the measure by
the house.

Under the rules of the senate, any
single member can delay legislation
upon any subject as long as he pleases,
provided his wind holds out. As to a
considerable amount of business,
unanimous consent must be obtained;
a solitary objection causes postpone-
ment.

This system of course, heightens the
personal power of every senator. To
be so situated that your solitary voice
will stop legislation for the United
States is rather alluring. Obviously it
makes you a great personage. Quite
as obviously it is not favorable to the
dispatch of public business. It is a
sort of graft, because it sacrifices the
public interest for the personal ag-
grandizement of ninety-odd gentlemen
who are supposed to be public serv-
ants.

Naturally no senator likes to give up
the personal power that accrues to him
through "senatorial courtesy." A mo-
tion to amend the senate rules would
undoubtedly be the most unpopular
one that could be presented to the up-
per house; but, in view of public senti-
ment on the subject, a sufficiently de-
voted band of senatorial martyrs could
put such a motion through.

For the first time in many years
taxing laws are being enforced impar-
tially. During Republican administra-
tions people of moderate means were
forced to pay taxes and a great many
corporations paid none. The larger
the campaign contributions by corpo-
rations the smaller was the amount of
taxes they paid.

IMPARTIALLY ENFORCING TAX LAWS

The Republican Press Bureau and its
allies, g. o. p. newspapers which have
been fighting to prevent property
owners getting a low tax rate, have
not yet learned that Republican gen-
eral assemblies looted the state treas-
ury. They don't realize this robbery
was one of the reasons why the peo-
ple cleaned the state house of grafters,
machine politicians, tricksters and in-
competents in the 1910 election.

To deceive the people, the g. o. p.
press bureau is sending forth the
statement that "the Democratic ad-
ministration inherited a treasury bal-
ance of \$6,000,000," and Republican
papers are printing it. As they, when
in power, shielded grafters and pro-
claimed them innocent, Republican
editors now conceal the fact that there
were outstanding unpaid appropri-
ations aggregating \$3,000,000 against
that six million dollars balance they
talk about, so that the treasury bal-
ance was only about \$3,000,000 when
Democrats took over the state govern-
ment.

It is a well known fact that general
assemblies make appropriations. In
the 1909 and 1910 sessions, Republi-
cans were in the majority in both
houses, and this was when the treas-
ury was looted to embarrass the Dem-
ocratic state administration which
was powerless to stop it. In those two
years, Republican general assemblies
lowered the treasury balance \$2,652-
\$58.68 by making appropriations ex-
ceeding receipts. When the 1910 session
of the general assembly ended the
treasury balance had dwindled down
to less than \$500,000.

Then a legacy of \$725,000 of obliga-
tions on new buildings was bequeathed
to the Democratic general assembly.
That is the story of the looting of the
treasury.

By impartially enforcing the laws
levying taxes on those corporations
which escaped paying taxes on their
property during the years of neglect,
incompetency, and misrule of Repub-
lican administrations, the Harmon ad-
ministration will leave a handsome
treasury balance, which will grow if
Democrats are continued in power to
enforce tax laws against corporations
as well as against the people.

In 1909 and 1910 the Republican gen-
eral assemblies looted the treasury to
the extent of \$2,500,000. They reduced
the treasury balance from \$3,000,000
to \$500,000, and also left a legacy of
\$750,000 of debts on new state build-
ings to be paid. The Democratic gen-
eral assembly, when it convened in
1911, was confronted by a critical con-
dition. A treasury balance of but
\$500,000, with \$750,000 of debts to be
paid on new buildings that had been
started by Republican general assem-
blies, would be sufficient to arouse any
financier to the gravity of the situa-
tion. The Democratic state adminis-
tration and Democratic general assem-
bly united to do the sensible thing.
The legislature passed tax laws to
strengthen taxing measures already in
the statute books, and the state ad-
ministration impartially enforced
them. Corporations that had been per-
mitted to dodge their taxes during Re-
publican administrations in return for
their contributions to g. o. p. cam-
paigns, were made to pay their taxes.
As a result of Democratic enforce-
ment of all tax laws the revenue of the
state has been increased and the Har-
mon administration will leave a hand-
some balance in the treasury.

Nine generals and colonels of a pro-
posed revolutionary army in Mexico
have been clapped into jail, and the
prospects of peace are now good. If
revolutionary generals can be kept un-
der lock and key the revolutionary pri-
vates who may be at large will not be
numerous enough to cause any appre-
hensions.

Mr. Roosevelt flatters himself that
he stopped the panic in 1907. But how
did it happen that there was a panic
with Mr. Roosevelt in the White
House, and the Republican majorities
in both branches of Congress, and the
Dingley tariff protecting American in-
dustry? There is a good deal for all
the Republican statesmen to explain.

COAL LAND VALUATIONS FOR TAXATION

Columbus, O., Aug. 8.—Coal land
valuations, aggregating \$17,550-
623, have just been certified by the
tax commission of Ohio to county
auditors in counties where this min-
eral abounds. This represents only
the coal valuations where the mineral
right is separate from the land title
and the coal is separately listed and
assessed.

The work of valuing these prop-
erties was in connection with the
quadrennial reappraisal of real
property. In the cases where the title
to the land and to the coal was in
the same persons or corporations,
the commission took care of the val-
uations when the real estate was cer-
tified several weeks ago. Certain
percentages were added to the val-
ue of lands in certain townships to
cover the value of the coal underlying
the land, which, in many in-
stances the assessors neglected to
take into account when they did the
assessing.

For months the commission has
had a mineral land expert attached
to its staff and has developed a great
deal of coal land that had not heret-
ofore been on the duplicate. It has
also caused to be separately listed a
great deal of the coal that was be-
ing overlooked by the assessors. Ad-
ditions have had to be made in sev-
eral counties in order that assess-
ments might be uniform.

The tax commission is of the opin-
ion that in dealing with coal a tax
on the output of the mines is better
than an ad valorem tax. If the op-
erators were taxed on the coal they
mine, at a reasonably high rate, more
nearly an equal earning basis could
be secured and at the same time the
state would be reimbursed, in some
measure at least, as its minerals are
being exhausted.

This action of the state tax com-
mission is more evidence that no
class of property will be favored in
the work of appraising for taxation.
It also shows that a diligent effort is
being made to get all kinds of prop-
erty on the tax duplicate.

WHY ACTRESSES NEVER GROW OLD.

(Theatrical World.)
Nothing concerning the profession
seems more puzzling to the dear old
public than the perpetual youth of
our feminine members. How often
we hear remarks like "Why, I saw
her as Juliet forty years ago and she
doesn't look a year older now!" Of
course allowance is made for make-
up, but when they se us off the stage
at close range, they need another ex-
planation.

How strange women generally
haven't learned the secret of keeping
the face young! How simple a mat-
ter to get an ounce of mercolized
wax at the drug store, apply it like
cold cream, and in the morning wash
it off! We know how this gradually,
imperceptibly absorbs old cuticle,
keeping the complexion new and
fresh, free from fine lines, sallowness
or over-ripeness. We know, too,
that this mercolized wax is the rea-
son actresses don't wear moth patches,
liver spots, pimples and the like.
Why don't our sisters on the other
side of the footlights learn the rea-
son, and profit by it?

ASK TAFT TO TURN CLOD.

San Francisco, Aug. 8.—President
Charles C. Moore of the Panama Pa-
cific Exposition, telegraphed Presi-
dent Taft yesterday asking that the
president turn the first clod of earth
marking the beginning of actual con-
struction of the 1915 exposition.

BEFORE AND AFTER.

It is really rather funny how the man
who's burning money finds a legion of admirers any place
he may stay. Everything he says is
witty; all the johnnies in the city gather
round him while there's wealth to throw
away. When he grows ex-
ceeding frisky in the glided home of whisky,
even the barkeepers make confession that he has a
wealth of charms; and the peepers
evidently, love him, for they treat him gently,
when his feet become entangled and he falls
into their arms. O, the world is soft and
tender to the lavish money spender and he
thinks that people love him for his merits
and his face; but when all his wealth is melted,
he is hustled, he is pelted, and the barkeepers
calmly kick him from the portals of their place.
And the people who were smirking when
his money was jerking, call him names that
hurt his feelings when he seeks a helping hand;
and the haughty cops surround him,
draw their little clubs and pound him, load him
in the hurry wagon, and he's fined to beat the
band. All the friends who gain by blowing money
where the booze is flowing are not worth a cent
a dozen—they're not worth the half of that;
they will shake you when you're busted and
will turn away disgusted, when, to buy a
little fodder, you attempt to pass the hat.

Bingo! Bing!! Corn's Gone!

Wear Smaller Shoes, Larger Smiles

Let every corn victim
remember! "Bingo!"
corn stops severe
corn pains at once!
Just paint the
corn's time—
say "bingo!"
The greatest in-
vention for foot
growth since
"bingo!" was
discovered. To
wear smaller shoes—
size larger smiles.
Makes foot smooth as a whistle—
slips on so easily, painlessly, you
forget you ever had foot trouble.
"Bingo!" shrinks the corn, loosens it
—down to the root's end—out it comes—
just like that! Doesn't hurt, healthy
corn grows as different from usual

LAND OPENING

Denied by Director Smith of the U. S.
Geological Survey—Open to
Agricultural Entry.

The statement which has been go-
ing the rounds of the press, to the
effect that 70,000,000 acres of coal
land now withdrawn are to be re-
stored to entry as the result of field
investigations now being conducted
by 14 Geological Survey parties, is
branded by Director George Otis
Smith as grossly misleading, if not
absolutely untrue. "The dispatch
evidently emanated from Seattle,"
said Director Smith, "and is based
on an alleged interview with W. R.
Calvert, a geologist of the Geological
Survey. In a letter to the survey
Mr. Calvert states that he refused to
give out any statement.

"What Mr. Calvert could have
stated," said Director Smith, "is that
the approximately 70,000,000 acres
of coal land in the west still belong-
ing to the government would be ex-
amined and classified by the Geo-
logical Survey as rapidly as the ap-
propriations made by congress will per-
mit. The 14 survey parties in the
field this year will be able to cover
but a small portion of this enormous
area, inasmuch as the coal land sur-
veys are made in very accurate detail
for the purpose of classifying and
appraising the coal lands."

Director Smith calls attention, how-
ever, to the fact that this entire coal
land area, belonging to the govern-
ment, is in fact open to full and free
agricultural entry, the government
reserving the coal rights only. Under
the highly important Mondell Act
of June 22, 1910, separating surface
and coal rights, any government coal
land, however valuable for coal, may
be entered by the homestead seeker
for its surface farming rights. Thus the
present coal land withdrawals and
classifications do not operate to re-
tard the home-making development
of the west.

ACTIVITY ON OHIO CANAL

Massillon, O., Aug. 8.—From the
Coal Trade Journal it is learned that
74 tons of coal arrived at Massillon,
via canal boat Strom, Captain Sulli-
van in command. The captain owns a
coal yard, a meat market and a gro-
cery in Akron. Hundreds of thou-
sands of dollars have been spent on the
canal by the state, and yet this is the
first cargo of coal in five years. This
may result from the fact that The
Strom is the only boat, Captain Sulli-
van says, between Cleveland and Dres-
den that is fit for water service.

OVERCOME BY GAS.

Coshocton, Aug. 8.—Charles Wil-

Lee were found unconscious yester-
day, lying in a trench, overcome by
gas while repairing mains for a coal
gas plant. They had lain for five
hours and were nearly dead.

COMSTOCK LODGE.

How the World's Richest Silver
Mines Were Discovered.

"You've struck it boys." Thus
said Henry Paige Comstock to Peter
O'Riley and Patrick McLaughlin, who
were his fellow prospectors in a
search for gold in Six-Mile Canon,
near the present Virginia City, the
capital of Nebraska.

The date was June 10, 1859. In
that remote spot in the American
wilderness, by these three obscure
men, was made on that day a discov-
ery destined to affect the current of
American politics for a score of years
and to have for long a disturbing in-
fluence on the world's finances.

The thing which was "struck" on
that June day of 1859 was the vein
covering what came to be known as
the Comstock lode, in which were
hidden the richest deposits of silver
ever found anywhere on the globe.
Their development, years afterward,
simultaneously with the silver mines
of Colorado, started the downward
broke in the price of silver, which
flooded the old ratio between the
money metals, changed the monetary
systems of the leading nations from
the double to the single gold stand-
ard, incited the movement beginning
in 1877 under the leadership of
Richard P. Bland, for the reopening
of the mints to silver on the same
terms as to gold, led hence to the
passage of the Bland-Allison limited
silver-coinage law of 1878, and to
that of the Sherman silver-bullion
deposit act of 1890; and was the is-
sue which split the two great parties
and made havoc among the smaller
ones in 1896, resulting in the act of
1900, which gave statutory recog-
nition to the gold standard in the United
States.—Atlantic Monthly.

BRIEF MEETING OF CITY COUNCIL MONDAY EVENING

Bonds to Be Issued to Pay Off Indebtedness of Old Waterworks Plant.

If the present plans of the city Council do not miscarry, the city will issue bonds to take up the notes representing the outstanding indebtedness on the purchase price of the old waterworks plant which was purchased a year ago. The necessary preliminary legislation was taken on Monday night to issue bonds in the sum of \$60,000 for this purpose. According to Service Director Christian the city will not only save money but they will immediately acquire complete legal possession of the old plant. The city will then be in position to dispose of it in any manner they see fit.

The meeting Monday night was disposed of with a quickness and dispatch that was pleasing to the sweltering legislators, all of whom were anxious to get out of the stuffy council chamber and seek relief on cool porches or elsewhere.

Besides a few other matters of routine business, as predicted in Monday's Advocate, an ordinance was introduced and passed after suspension of rules, to issue bonds to take up the notes amounting to \$60,000 which represent the indebtedness on the purchase price of the old waterworks plant.

It is the aim of the council to save the difference between the 6 per cent interest on the notes and the four per cent interest on the bonds which it is proposed to issue. The ordinance provides that the revenue derived from the sale of water be used in taking care of the interest and the matured bonds.

At the present rate of earnings for the plant as indicated by the monthly reports of Service Director Christian, this can easily be done and in four or five years the city will have acquired free from debt a valuable revenue producing property.

After the roll call and the usual preliminary business, the Mayor's report for July was read. It shows that Mayor Ankele collected in licenses \$35; fines and costs in city cases \$32; other collections \$53; in state cases fines amounting to \$267; mayor's fees \$96 and officer's fees \$48, a total of \$304 in state cases. The total collections for the month amounted to \$474.

Clerk McCarthy made a report to the council that he had certified the service of notices on the property owners in the matter of the Granville street paving.

The property owners on Hunt street, West Newark, petitioned for cement sidewalks on their street. Seven property owners on Williams street from Hancock to Main made the same request and this was followed by a prayer from five property owners on Burt avenue from Decrow to Williams asking for the same relief.

Councilman Muenz addressed the body and stated that these people were anxious to have quick action on these petitions. They are all anxious to get these sidewalks started in time to have them set before the severe fall weather opens up and all they want is to have the city establish the regular grade there so the work can proceed.

The Trades and Labor Assembly extended an invitation to the council to take part in the labor day celebration here by appearing in the parade. Councilman Prior offered a motion that the invitation be accepted, saying that this was an opportunity for the members of council to show its unqualified approval of organized labor. His motion was carried unanimously.

The Public Service Commission of Ohio, in a lengthy report, stated that the recommendations of its representative, Mr. Dugan had been formally ordered by the commission. The communication was lengthy and to it was appended copies of the orders sent to the two railroad companies. In these orders the companies were instructed to place a watchman at Second street to be on duty from 6 a. m. to 6 p. m. He is to operate a bell at the First street crossing to warn the street car.

HEALTHY MOTHERS

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores.

Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

warn people of danger from approaching trains or locomotives at this point. At Williams street the companies were ordered to install the latest electrical device for warning passengers of danger. The order states that at any time the bell is out of order, the companies shall place a watchman at these crossings until such time as the bells are repaired. The Pennsylvania company was further instructed to have the trainmen who cut their trains at the Oakwood avenue crossing, guard the crossing carefully and indicate to pedestrians and drivers of vehicles when it is safe to attempt to cross the tracks while the cut trains are standing there.

This is a decided victory for the city as practically every prayer in the city's petition was granted by the commission after a careful investigation.

The ordinance providing the bond issue of \$60,000 to take up the notes on the purchase price of the old waterworks company, was introduced by Councilman Muenz. It was read for the first time and motion on the rules was suspended and the ordinance was read for the second and third time and passed. Every councilman voted for its passage.

Councilman Muenz also introduced an ordinance providing for the repurchase of the land east of the B. & O. tracks and south of Church street, known as the North Fork commons. This tract of land was sold a year or two ago for \$100 to the board of trade for a factory site. It was not used by the board and it is now needed for a new city building. The ordinance was passed on suspension of rules. Councilman Stare introduced a companion ordinance declaring it necessary to build a city building on this tract to be used for the storage of machinery, supplies, and horses belonging to the city. This ordinance was passed under suspended rules.

An ordinance introduced by Mr. Prior provides for the transfer of funds, amounting to \$70 from one fund to another. The money is to be used in purchasing a new typewriting machine for Clerk McCarthy.

The Daughters of Veterans petitioned the council for permission to erect a bronze tablet containing Lincoln's Gettysburg address, in the court house park. The communication was referred to the street committee.

A resolution by Councilman Stare declaring it necessary to construct sidewalks on a long list of streets was adopted. A resolution by Councilman Elsher declaring it necessary to construct a sewer on Fifth street from Commodore to Chestnut and on Chestnut to Fourth street, was adopted.

Councilman Elsher reported that the street committee had reported unfavorably on the proposed addition to the city at the end of Fulton avenue, West Newark. He said that he understood that the promoters of the proposed addition now wanted to lower the grade of the street to permit the fording of the creek at Fulton avenue. He asked the council to order by motion, the street committee to again look into the matter and report at the next council meeting.

CONGRESS IN DEADLOCK OVER TARIFF BILLS

La Follette and Underwood of Conference Committee Can't Agree and Bills May Fail.

Washington, Aug. 8. — The prospect of congress remaining in session indefinitely or adjourning without final action on the wool and farmers' free list bills loomed large yesterday when a deadlock was reported between Senator LaFollette and Chairman Underwood, who have undertaken to reconcile the differences between the two houses on those measures.

The tie-up is due to the uncompromising position of Mr. LaFollette in opposition to the house bill. He had told Mr. Underwood that a reduction of the rates below those fixed by the bill as it passed the senate is an impossibility, and in response the chairman of the ways and means committee, who had great difficulty in getting an agreement by the house to the rates fixed in his bill, has said that the house will never consent to accept the senate figures.

Mr. LaFollette's contention is that the senate rates constitute a reduction of about three fourths of the difference between the rates of the Payne-Aldrich law and those of the house bill; that it is impossible to go lower and hold anything like all the progressive Republicans, and that it is better for the Democrats to take a half loaf than get nothing in the way of tariff bread.

Mr. Underwood did not accept the senate figures, but is quietly canvassing the house to ascertain what increase over the house rates may be possible. He has told some of his friends the house might be persuaded to "meet the senate half way," but the progressive leader merely smiled in response to suggestions of this character. He told Mr. Underwood the difference was with his party friends rather than himself, and they sustained him in the statement.

The progressive Republicans considered it important that they stand as a body, and have found it impossible to obtain anything like unanimous consent to a rate of less than 35 per cent on raw wool and the corresponding rates on woolsens fixed by the senate bill. The difficulties pertain entirely to the wool bill. An agreement on the free list bill could be had at any time.

The deadlock has given rise to all kinds of suggestions and surmises. Accepting the tangle as inextricable, some senators and representatives have suggested a movement for final adjournment of the session regardless of the conference and the senate is being sounded on that proposition. Most of the regular Republicans are willing to agree to this, as are some of the Democrats. Included in the latter list are those southern senators who would like to see the further consideration of the cotton bill postponed until next session. They are willing to accept almost any legitimate reason for delay and would welcome any expediency that would carry cotton over.

The cotton bill is unquestionably playing a part in the conference, but all the facts have not come to the surface. The insurgent Republicans and some of the Democrats are strongly favor cotton legislation and appreciate the impossibility of holding a quorum of congress in Washington after the final action on the wool bill.

They take the position that the only safeguard for the cotton bill is to keep wool back until after the cotton bill is reported and a day fixed for a vote. The power to so hold the cotton measure rests with the conferees, but they do not admit they are acting from this motive.

Senator LaFollette told some of his senatorial associates on the conference committee yesterday that the outlook for agreement was somewhat brighter. He said also that while the full conference committee might be called together any day a week might elapse before a meeting would be desired by the sub-committee.

Mr. Underwood last night said he "believed that the free list bill would be sent to the president."

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Daddy's Bedtime Story

Little Boy and Girl
Kept Lighthouse
Lamp All Night

"WHAT'S the greatest thing in the world, daddy?" asked Jack one evening.

"Well, that's a very hard question, son," answered daddy. "And it could be answered by a thousand persons in a thousand different ways. But for a little chap like you, getting ready to go out into the battle of life, I can't think of anything finer than pluck."

"And that reminds me that I read only a few days ago about an example of childish pluck that actually made a silly old tear fall from my newspaper."

"It's about both a girl and a boy," went on daddy, "so you had better keep your pink ears open, Miss Evelyn."

"Oh-h, daddy," said Evelyn, "did I ever fall asleep while you were telling a story?"

"Very seldom, ma'am," answered daddy, "and now I'll begin. In a little lighthouse at Belle Isle, off the coast of France, there lived a keeper named Matelot with his wife, a boy and girl named Marie and Charles—about your ages—and a little baby girl."

"Early one morning last April, while Matelot was cleaning up his great lamps, he became suddenly ill and had to go to bed. When dusk came on he was delirious with pain and could only say, 'Oh, the light, the light!'"

"Mrs. Matelot climbed the tower and lit the wicks and climbed down again only to find her husband dead. Then in came little Charles, crying, 'Oh, mother, the light is not turning!' and she remembered that her husband had been too weak to wind up the heavy clockwork which makes the lamps blink at regular intervals."

"That was very bad in itself, for a ship captain, seeing a steady light where he looked for a twinkling one, would probably run straight on the rocks, but to make matters worse a frightful storm was coming up."

"Well, mother," said little Marie, "there's only one thing to be done. Charles and I must push it around with our hands all night."

"And that's just exactly what those two mites did. The mother could not help them at all, for she had to make ready for her husband's funeral and also had Baby Eugenie to look after."

"All France went wild with admiration when the story became public, and so much money was sent to the newspapers that the little fatherless family can live in comfort."

Quarter Century Ago.

(From Advocate Aug. 8, 1886.)
Probate Judge Allen has granted marriage licenses to Lemuel Hammond and Emma Riley and Jeremiah Harkey and Ella E. Williamson.

A large number of Newark people will attend the camping meeting at Lancaster in order to see and hear the celebrated Sam Jones.

The funeral of Mr. Job Litten, who died last Saturday, took place yesterday afternoon from his late home, just north of the city.

Mrs. George T. Simonds of Marysville, Ky., who has been the guest of Mrs. A. J. Simonds of the Hotel Warden, left for her home today, accompanied by Miss Kittie Simonds.

Fifty Years Ago Today.

Two children, aged eight years, named Barratt and Bradley, were tried in an English court for the murder of George Burgess, aged two years and nine months, by beating him with sticks and throwing him into a pool. They were found guilty and sentenced to one month's imprisonment and five years in reformatory.

Twenty-five Years Ago Today.

George Hazlett and William Potts, coopers, of Buffalo, in a torpedo shaped barrel, passed safely through the Niagara rapids.

Lewis, M. A., C. N. Dinsmore; I. G. John Simmons; O. G. R. J. McInturf; district deputy grand chancellor, H. E. Lake.

A Daughter.
Born, to Mr. and Mrs. Geo. Waggenheim, a 9-pound daughter.

Young-Kinney Reunion.
The Young-Kinney reunion which was to have been held Wednesday, Aug. 9, has been postponed until Thursday, Aug. 17, on account of the illness of O. B. Young, at whose home the reunion will be held.

Woolard Reunion.
The sixth annual reunion of the Woolard family will occur at Mount-turk, Park Thursday, Aug. 17. An excellent program is being prepared, and the event promises to be the best yet held. Come and enjoy a day of recreation and pleasure.

Likes the Advocate.
Mr. A. D. Clawson of Hedrick, Md., in sending remittance for renewal of his Daily Advocate subscription, says: "The most enjoyment we have in reading the Advocate. We have taken your paper for a number of years and couldn't very well get along without it, as it is our home paper."

District Meeting.
The annual meeting of the Fifth Ohio district, Improved Order of Red Men, will be held in Crooksville on Thursday, Aug. 31. The district comprises the tribes of Licking, Muskingum, Perry, Guernsey, Fairfield and Belmont counties, and all of the great chiefs of the county will attend.

Successful Operation.
Dr. and Mrs. C. J. Loveless of Perryton, returned Saturday from an extended trip to Rochester, Minn., where Dr. Loveless underwent a successful operation at the hands of the famous Mayo Brothers' surgeons at the Mayo Hospital, and also took a course in post graduate work while there.

Good Oil Strike.
One of the Columbus oil companies, operating in the Bremen field, came to the front last week with one of the best wells of the year in that district. The Capital Oil Company drilled in a well on the Johnson farm, south of Junction City, that is said to be good for 125 to 150 barrels a day.

New Officers Elected.
At a recent meeting of the Knights of Pythias of Johnstown, the following officers were elected: C. C. Gideon Rowe; V. C. J. W. Smith; Pre-late, Ralph H. Baker; M. W. Emmet.

ATHLETIC GIRLS.
The mental and physical superiority of the American woman, which seems to be conceded very generally, is due in a great measure to her training in athletics. Athletic training is just as important to girls as to boys. But experience has proved that the same sort of games are not beneficial to the two sexes. Outdoor training in the country is, of course, best of all. But thousands of poor children in the cities never get to the country, so we have to bring outdoors to them. Folk dancing is ideal exercise for girls. It gives them the right carriage, develops their chests and prevents tuberculosis. It has been proved that improved physical health means improved mental efficiency. The girl who wants to be a brilliant woman should first become a healthy woman. — Mrs. James Speyer.

GOOD ROAD SHOW AT STATE FAIR

Columbus, Aug. 8.—State highway Commissioner Jim Marker is back from Washington with a story that the government for the first time will conduct a good roads show at the Ohio State Fair. The good roads bureau at Washington has been allotted space for an exhibit and will show Ohio road builders how to make good roads. For the most part the exhibition will consist of the operation of miniature road-making machinery, tiny stone crushers, road rollers and the like. Marker is sending out invitations to all county commissioners, surveyors, and road contractors to attend the government exhibit.

Money talks, but many a man squeezes it until it has some difficulty in making itself heard.

YOUR MONEY

Is safe in the Buckeye State Building and Loan Company, Rankin Building, 22 West Gay street, Columbus, Ohio, because it is loaned only upon real estate security. The company has Columbus homes to the value of over twenty million dollars mortgaged to it to secure loans. This means safety to depositors. Assets \$4,800,000. Five per cent paid on time deposits.

HOT WEATHER HURTS THE SKIN

Poisonous perspiration causes rash, hives, blotches, pimples and prickly heat, often the beginning of serious skin troubles.

To wash away the poison entirely, apply a simple solution known as D. D. D. Prescription for Eczema, D. D. D. is generally sold in \$1.00 bottles, but for 25c, we can now give you enough to prove that the very first drops soothe and heal the inflamed skin as nothing else can.

We vouch for the wonderful properties of D. D. D., for we know that it brings instant relief for all kinds of skin trouble.

STANLEY R. MILLER ELECTED CLERK OF ELECTION BOARD

Stanley R. Miller of Poplar avenue, was Tuesday afternoon elected clerk of the Board of Deputy State Supervisors of Elections, succeeding Michael Sachs, who has held the position for the past four years.

Mr. Miller is a son of Ex-Senator and Mrs. William E. Miller and he is eminently qualified in every way to fill the exacting duties required in the discharge of the position. He has been either a judge or clerk in his precinct for the past ten years. The position carries with it a fair compensation and Mr. Miller's friends will congratulate him on his good fortune.

The retiring clerk, Mr. Sachs, has been a painstaking official, ever courteous to all who had dealings with the board. He retires with the best wishes of the officials and newspaper "boys."

Accused of Stealing.
E. E. Chamberlain, of Clinton, Me., boldly accused Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs cuts, corns, bruises, sprains and injuries of their terror," he says. "As a healing remedy its equal doesn't exist." Only 25c at F. D. Hall's.

The Babies of Holland

Latest figures show that there are 18 babies born in France to every 1,000 persons annually, and in Holland 155. Although Queen Wilhelmina's baby is the only Dutch baby that has been written up in the American newspapers, it seems that everybody else in Holland has one.—Louisville Courier-Journal.

A Ride in a Crowded Car.

Minneapolis is now striving to enforce a "no-seat-no-fare" ordinance. Other cities have been through the experience, and they have found, as a rule, that people who are in a hurry, as most people are, will take the first car that comes along, whether it is crowded or not.—Christian Science Monitor.

A Prudent Convict.

Two highwaymen dug their way to liberty from a Missouri jail, but a bigamist convict refused to accompany them, as he wouldn't run the risk of meeting up with any of his women folk.—Washington Post.

A Reaction in Spelling.

The United States geographic board has decided that Pittsburgh must be spelled with an "h." This looks like a reaction from simplified spelling.—Christian Science Monitor.

The Answer Found at Last.

The ability of Maine to keep a secret may explain why, among all craft, a battleship is not termed feminine.—Los Angeles Tribune.

GRAY HAIR WILL MAKE YOU LOOK OLD

Use Wyeth's Sage and Sulphur and Your Gray Hair Will Quickly Vanish.

Gray hair is a mark of age and nothing that can be said as to its beauty will affect the disadvantages of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy darkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used sage and sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients which makes a delightful dressing for the hair, and which not only removes every trace of dandruff, but promotes the growth of the hair. It also stops the hair from falling out and makes it beautiful.

HAL LANDON

(Continued from Page 1.) publication that gained prestige under their management. This work brought him to the attention of the proprietor of the Columbus Dispatch and he rose steadily upon entering the services of that concern in 1890 until he was the leading editorial writer when he left in 1896.

From his father Dr. C. P. Landon, who was a civil war veteran, he inherited a sturdy Republicanism, and he was usually active in behalf of those newspapers that espoused the Republican doctrine. From Columbus he went to Cincinnati, and after a period of local work for the Commercial Tribune, was sent to Washington as its representative. Later, while at Washington, he took the position of correspondent for the Cleveland Leader. He also was employed on the Washington Post for a time.

He was stationed in Washington during the McKinley administration, and his personal acquaintance with the president and other Ohio politicians and statesmen gave a high value to his writings, which were conceded by those most directly concerned to be fair and accurate.

The death of his brother Karl, who had been Washington representative of the Cincinnati Enquirer, and his own weakened health caused him to give up his work for a considerable period and seek rest at home. Later, however he was persuaded to resume editorial work, and he piloted the editorial department of the Ohio Sun until that paper suspended publication. He was an editorial writer on The Press when it was changed to The News and continued with its staff until its end, although he had done little writing for more than a year past.

Four years ago he was run down by an automobile in East Broad street and sustained severe injuries and a nervous shock.

About a year ago he suffered an attack of typhoid fever, with complications, and for a long while his life was despaired of. He never was vigorous after that time. When he returned one day to the rooms of the paper where he was employed he had

the gruesome sensation of seeing his own obituary in type.

Mr. Landon was married while in Washington and his wife and their son, Chauncey, make that city their home. The boy, however, has been attending college in Westerville.

Mrs. Landon, the mother of Hal D. Landon, was a member of the first graduating class of Otterbein University, and all of her four children were graduated there. A daughter, Eloise, married the late George L. Converse, congressman from this district, and after several years of widowhood married Dr. F. L. Stillman. She met death in an automobile accident two and one half years ago.

The body of Mr. Landon was taken in charge by the Fletcher-Brown Co. on direction of Miss Landon, who came to Columbus immediately upon receipt of the news of the finding of her brother's body. It will be shipped this afternoon to Westerville, where burial will be made either today or Thursday.

Hal Landon was well known to many Newark residents and to all the local newspaper men. He has paid this city many visits and always had a good word for Newark. He was a political writer of exceptional ability and his death has cast a gloom over the field where he labored for many years.

MERGER OF THE M. E. CONFERENCES

A question that is uppermost in the minds of many Ohio Methodists at this time is the proposed merger of the North Ohio and East Ohio conferences of the Methodist Episcopal church. A committee of 20—ten ministers and ten laymen—appointed to represent Cleveland and vicinity, has made a report favoring the action.

The first argument offered is one in the interest of Cleveland, referring to having the city all in one conference. Another advantage suggested is that Cleveland might get a resident bishop and the location of one or more secretarial offices. If the union takes place the new body would probably be called the North-east Ohio conference. It would consist of 510 ministers and equal number of lay members. It would be too large a body to be entertained outside of the more important cities of the territory represented.

It is thought that representatives of the country charges may not favor the proposition.

A NEW WAY FOR WOMEN.

The Monday washing is a small tragedy when performed by the old-fashioned method of rub, rub, rub, until a while, and then scrub. Science, by the production of a pure, clean, white laundry soap has solved a much easier way—soaking the clothes with the help of Hewitt's Easy Task soap. This is much quicker, less laborious and costs no more than the poor, old-fashioned kind. Five cents at your grocer's.

CLAIMS SHE WAS ROBBED OF \$400

New York, Aug. 8.—Miss Madeleine Travers, a young society woman of Boston, returning from Europe on the liner America, reported the robbery from her suitcase in her cabin on Aug. 1. In the chaste bag with the money was several thousand dollars' worth of jewelry that the thief did not take.

"I had just received a wireless congratulating me on my birthday which was Aug. 1," Miss Travers said, "and I went down to my cabin to get money to send a message in answer. The \$400—all I had—was in an envelope marked '400,' and I suppose the thief saw this and was afraid to stop long enough to look for jewelry."

ATTEMPTED TO CREMATE FAMILY

Denver, Aug. 8.—Desperate work by Denver firemen balked a father's attempt to cremate his wife and three children as they slept.
It is claimed that the man, W. C. Wheeler, deliberately set fire to the house and then stood in front to watch the flames incinerate his family. A passer-by turned in an alarm. Firemen arrived promptly, battled hard against the flames and subdued them in time to save Mrs. Wheeler and her three children. Wheeler disappeared. He has been arrested four times, accused of nonsupport, according to police records.

THEATRE OWNER HAS DISAPPEARED FROM COSHOCTON

Coshocton, Aug. 8.—Fred Abbott, owner of the Colonial theatre, after writing an open letter to the public saying he was up against it, which he published in local papers, has strangely disappeared. He owes no bills and has had an ideal domestic life. His strange disappearance has shocked his friends. His letter said he was going to look for a new place and get a new start in life.

RABBIT FARM.

Few people are aware that one of the largest rabbit raising farms in the country is located near Tiffin, writes the Tiffin Tribune. The Keller rabbitry, on the Portland road, just east of the city, is one of the largest and most widely known industries of this kind in the United States.

The rabbitry is conducted by H. L. Keller, who raises all breeds of fancy rabbits. He ships the bunnies to all parts of the country and has won a wide reputation as a fancier. Monday morning, Mr. Keller shipped 21 head of rabbits and a few guinea pigs to S. H. Higginbotham, of Preston, Iowa, owner of a big ranch. The shipment included Flemish Giants, Belgian hares and Dutch breeds.

ADVISES BOY SCOUTS AS TO DRINKING WATER

Captain Albert E. Love, Medical Corps, United States Army, has written to the Boy Scouts of America giving instructions in regard to drinking water when in camp or on hikes. The aim is to prevent the boys from becoming infected with typhoid fever or other diseases. Captain Love says boys should follow the same rules that are applied in the army. He explains it is the custom of the medical department to consider all surface waters such as rivers, springs, creeks, lakes and shallow wells as infected, unless the geographical situation shows that the water cannot be contaminated. He says: "It would undoubtedly be safer when out on hiking parties or camping trips, when drinking water cannot be carried, to either boil or otherwise sterilize all water for drinking purposes that is not above suspicion."

PUSHED BARROW SOME DISTANCE

New York, Aug. 8.—Frank A. Orr, 26 years old and six feet tall, arrived at the city hall today with a wheelbarrow which, he said, had been his sole companion, apart from his fox terrier, Prince, on a trip from Charlotte, N. C. He started on July 4.
Orr arrived here Saturday and said he pushed the wheelbarrow to win a wager of \$500 made at a club of his home city. He said that he had complied with the terms of his wager, which provided that he must not beg nor ask for food on the route and that he must start from home without a cent. He brought with him a letter from Mayor Charles Bland of Charlotte. He was given a letter from Mayor Gaynor to the effect that he had completed his task.
In speaking of his trip, Orr said that at Bristol, Pa., a crazy man attacked him, but that a farmer and himself had succeeded in overpowering the man.

PREPARING FOR STRIKE ON THE WESTERN ROADS

Cincinnati, Aug. 8. A representative of a labor recruiting agency, who has been enlisting men to go west as strike breakers for several days past, today admitted that the men were wanted in case of a general strike on the western railroads. He denied that he was employed directly by the Harriman lines, but said that his employers, in Chicago probably had an agreement with some of the large western railroad systems.

PASSED AWAY AS THE CHURCH BELLS WERE RINGING

Coshocton, Aug. 8.—After being unconscious for several days, Mrs. Marianna Crawford of Jackson twp. opened her eyes Sunday night. Just as the church bells near her home were tolling the hour for the evening service, she smiled peacefully and said: "Oh, I hear the church bells ringing." With these words on her lips, she again lapsed into unconsciousness and was soon dead. She has been a consistent church member all her life.

GRANVILLE

Granville, Aug. 8. There seems to be a feeling among our citizens generally that the municipal officers to be named shortly must be men of probity and intelligence. Petitions for the various offices have been filed by both Democrats and Republicans. The offices to be filled are of the utmost importance because of their intimate relation to our everyday life. It is more important to you to have good village officers than most anything else. From mayor down, the offices in Granville should be filled with good men.

Mr. and Mrs. Clem Packler of Columbus spent Sunday here with Mr. and Mrs. Frank Rogers.

Mr. and Mrs. G. B. Clark of Delphos, O., who have been enjoying a visit with relatives and friends in Granville and vicinity during the past several weeks, left for their home Monday.

Mrs. William Morgan, who has been in the hospital in Newark for the past several weeks, has recovered sufficiently to be brought to her home in this place. She is getting along nicely and it is expected that a quick recovery will be made.

There will be a rattling good game of ball on Beaver Field Wednesday afternoon at 2 o'clock when the Granville Athletics and the Has-Becs will clash. The proceeds of the game are for the benefit of the Granville Public Library.

The time of the year is now here when many people can be seen on the streets with bleary eyes, a "runny" nose and a general dejected appearance, as though they had been out with the boys for a night. Although the victims look that way, it is not from that cause, but from the dread hay fever, which spares neither rich nor poor. Many that are able have already left the village to seek relief at one of the many northern resorts, but those who are not able will stay at home to fight it out, and will not get relief until frost comes. The blossoming of the rag weed is said to be the signal for the attacks of hay fever, and its ripening is now being watched with apprehension.

Little Jennie Thomas, the 12-year-old daughter of Mr. and Mrs. J. G. Thomas, residing a short distance north of town, received a large number of postal cards on the occasion of her birthday Saturday. She is very grateful to her friends for the remembrance.

The football outlook for Denison for the season of 1911, which is not far distant, is very bright, and active practice will begin shortly after the students return to school next month. The prospects for a heavy and fast team are better than they have been for several years. Some of the members of last year's team will be in the game again this year. The football played last year was worthy of recognition, and they are confident they can make a better showing this year.

Rev. and Mrs. J. S. West of Bucyrus, have been spending some time in Granville. Mr. West is a graduate of Denison of the class of 1904, and has accepted a pastorate in California, where he will remove in a short time.

Thirty Years Together.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there is no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it for forty years. It is the most infallible throat and lung medicine on earth. Unequalled for lagrippe, asthma, hay fever, croup, quinsy or sore lungs. Price 50c. \$1. FISH PLANTING IN BUCKEYE LAKE

Congressman Ashbrook Secures Consignment Upon Application of the Newark Board of Trade.

The government will soon plant a large number of fish at Buckeye Lake as a result of the efforts of the Newark Board of Trade and Congressman Ashbrook.

A few days ago, the Board of Trade, through Secretary, W. C. Wells, addressed a communication to Congressman Wm. A. Ashbrook saying:

"We have been advised that Columbus has been able to have the United States Fish Commission stock some of the streams in its vicinity. We are writing you to see if it would be possible to have some fish put in Buckeye Lake, which, of course, will be a benefit to our city and county."

Mr. Ashbrook promptly replied saying:

"I shall be very glad to co-operate in every way that I can to secure a quantity of fish for Buckeye Lake and will take the matter up with the Bureau of Fisheries today. I am glad to note your interest in matters of this sort and I pledge you my best assistance."

Mr. Ashbrook sent an application to the Bureau of Fisheries giving full details regarding Buckeye Lake, the second largest inland lake in this state and asked for a consignment of fish.

Commissioner Bennett immediately sent to the Board of Trade an application blank with a view of obtaining a description of the waters and full shipping directions saying:

"Upon its return to this office a liberal assignment of some desirable species of food fish will be made on the application and the fish will be distributed during this summer's distribution in Ohio."

Secretary Wells says he does not know what species of fish will be sent, but is advised that only one variety of fish will be planted and it is probable either large blue sea-fish, green bass or marble catfish will be sent to Buckeye Lake by the government. The fish will be of large size and a liberal number will be planted.

+ WRINKLELESS SKIN
+ NOW EASY TO HAVE
+ *****

(From Family Physician.)
There's no excuse for any woman having wrinkles now. It has been found that a simple mixture of sassafras and witch hazel has a remarkable action upon the deepest wrinkles, no matter what their nature, whether caused by worry, habitual frowning, a debilitated condition or the ravages of Father Time. This harmless remedy, which anyone can easily make and use at home, acts both as an astringent and a tonic. The combined effect of tightening the skin and heightening its vitality is to immediately affect every line and wrinkle, keeping the cuticle smooth and firm as in youth.

The proportions are one ounce sassafras (powdered) to one-half pint of witch hazel. The solution should be used as a wash lotion. It is equally effective in disposing of flabbiness of cheek and neck, as well as sagging below the eyes.
